Presentation and career goal

Student in a master of complementary skills in computer science, I am currently looking for an internship in software development. I aspire to gain new skills, meet new challenges and adding value to a company with my interdisciplinary profile.

Following graduation in neurosciences, I chose to enrich my background in biology with other disciplines in order to broaden my knowledge of brain science and its methods of study. My professional project got fine-tuned in the process. Besides, I gained discipline, perseverance, autonomy and a keen IT interest from internships in research labs. Furthermore, my post-master experiences and Erasmus exchange brought me a more open mindset, adaptability and teamwork skills.

Nowadays, I want to pursue professionally in the computer science field in order to invest in projects in back and front development.

Education

| | |
|-------------|---|
| 2021 | <i>Master of Complementary skills in computer sciences - University Aix-Marseille</i> |
| 2020 | University gap-year: Internship in cognitive psychology <i>University of Saint-Etienne Jean Monnet</i> |
| 2019 | Bachelors of Psychology & Philosophy <i>University of Toulouse Jean-Jaurès & University of Budapest Loránd Eötvös (Erasmus semester)</i> |
| 2017 | Master of Health Biology : Neuropsychology and Clinical Neurosciences <i>University of Toulouse Paul Sabatier</i> |
| 2015 | Bachelor of Cellular biology and physiology <i>University of Toulouse Paul Sabatier</i> |
| 2012 | Scientific High school degree (mathematics specialization) |

Skills

| <i>Computer science</i> | <i>Research and experimentation</i> | <i>Languages</i> |
|---------------------------------------|---|--|
| Programming: Java - C | Design and experiment programming | French: mother tongue |
| Data base: SQL | Acquisition and data analysis | English: C1 (test OLS 2019 - Online Linguistic Support Erasmus+) |
| UNIX System | Signal processing and analysis | Spanish : high-school level |
| Web languages: | Psychoacoustics | |
| HTML – CSS – PHP - Javascript | Electroencephalography (EEG) | |
| Data structure and algorithms | Statistics | |
| <i>Technologies and frameworks:</i> | Research writing and presentations (french and english) | |
| Laravel – GitLab & GitHub – Eclipse - | | |
| Visual Studio - Android Studio - | | |
| jQuery -ReactJS | | |

Professional experiences

INTERNSHIPS

- [Research internship | ENES CNRS UMR 9197 Saint-Etienne | January 2020 – May 2020](#)
Experimental design and programming, psychoacoustic data acquisition, acoustic analysis, bibliographic review (in English), research presentation.
- [Voluntary internship | ISAE SUPAERO Toulouse | July – 2019](#)
Support in the implementation of the EEG device for neurofeedback and learning of Matlab basics.
- [Observational internship | Tisséo SMTc Toulouse | March - April 2019](#)
Cognitive psychology and ergonomics practice, interviews
- [Master thesis | LNC CNRS UMR 7291 Marseille | February 2017 – June 2017](#)
Data acquisition and EEG analysis, psychometric tests in children, thesis writing (in French) and research results presentation.
- [Master internship | CerCo CNRS UMR 5549 Toulouse | November 2015 – December 2015](#)
Processing and analysis of iEEG signals.

STUDENT JOBS

- Seller in a cake shop | La toque cuivrée Toulouse | June 2019 – December 2019
- Food production agent | Candiflor Quint-Fonsegrives | May 2018 – August 2018
- Team member in fast-food restauration | Elior - Quick Toulouse | June 2015 – August 2015
- Seasonal agricultural work | summers 2010 to 2014

Personality and interests

Reserved by nature, I am a curious and attentive person, generally calm but also reactive and dynamic when working on stimulating and challenging missions. I have a strong work ethic, good interpersonal skills. I am sensitive to stress but have learned to manage it productively, I am not very extroverted but I do like making public presentations, I like to work alone but I highly value teamwork and collaboration.

Passionate about music, I practice the piano at an advanced level. I regularly run and hike and also love to travel (Italy, Spain, UK, Germany, Belgium, Hungary, Austria, Slovakia).
